AB - J53018775 Edible odourant-contg. oil and fat compsn. contains cyclodextrin and odourant. Natural or artificial flavours e.g. butter, spice, milk, cream, etc. can be included in cyclodextrin by adding water to cyclodextrin to obtain the pasty mixt. adding 0.1-2 times wt. based on cyclodextrin of the odourant to the paste and kneading the mixt. for 1-12 (1-3) hrs. Pref. alpha-cyclodextrin, beta-cyclodextrin and gamma-cyclodextrin are used.

- The thermal resistance and the retaining property of the odourant are improved. The perfume can be stored for ≥ 3 months.

- Cyclodextrin does not harm the edible oil and fat, breads, confectioneries, etc. prepd. using it.
